There are a great many people who have slight attacks of indigestion and dyspepsia nearly all the time. Their food may satisfy the appetite but it fails to nourish the body simply because the stomach is not in fit condition to do the work it is supposed to do. It can't digest the food you eat. The stomach should be given help. You ought to take something that will do the work your stomach can't do. Kodol for Indigestion and Dyspepsia, a combination of natural digestants and vegetable acids, digests the food itself and gives strength and health to the stomach. Pleasant to take.

Do You Open Your Mouth

Like a young bird and gulp down whatever food or medicine may be offered you? Or, do you want to know something of the composition and character of that which you take into your stomach whether as food or medicine?
Most intelligent and sensible people now-a-days insist on knowing what they employ whether as food or as medicine. Dr. Pierce believes they have a perfect right to insist upon such knowledge. So he publishes, broadcast and on each bottle wrapper, what his medicines are made of and verifies (under seal) This he feels he can well afford to do because the more the ingredients of which his medicines are made are studied and understood the more will their superior curative virtues be appreciated.

For the cure of woman's peculiar weaknesses, irregularities and derangements, giving rise to frequent headaches, backache, dragging-down pain or distress in lower abdominal or pelvic region, accompanied, oftentimes, with a debilitating, pelvic, catarrhal drain and kindred symptoms of weakness, Dr. Pierce's Favorite Prescription is a most efficient remedy. It is equally effective in curing painful periods, in giving strength to nursing mothers and in preparing the system of the expectant mother for baby's coming, thus rendering childbirth safe and comparatively painless. The "Favorite Prescription" is a most potent, strengthening tonic to the general system and to the organs distinctly feminine in particular. It is also a soothing and invigorating nerve and cures nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea or St. Vitus's dance, and other distressing nervous symptoms attendant upon functional and organic diseases of the distinctly feminine organs. A host of medical authorities of all the several schools of practice, recommend each of the several ingredients of which "Favorite Prescription" is made for the cure of the diseases for which it is claimed to be a cure. You may read what they say for yourself by sending a postal card request for a free booklet of extracts from the leading authorities, to Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and it will come to you by return post.

A Victim.
"Pa," asked the small boy at the classic recital, "is that man playing the piano while that woman sings her 'accompanist'?" "No, my son," replied the father, in whose unresponsive plebeian soul the soprano had found no sympathetic answering chord. "That man is her 'accompanist'."

Lame Back.
This is an ailment for which Chamberlain's Pain Balm has proven especially valuable. In almost every instance it affords prompt and permanent relief. Mr. Luke LaGrange of Orange, Mich., says of it: "After using a plaster and other remedies for three weeks for a bad lame back, I purchased a bottle of Chamberlain's Pain Balm, and two applications effected a cure."

Lived Long on Simple Diet.
For more than 63 years a woman in Readsboro, Vt., has subsisted on a diet of crackers. Ever since she was ten years old she has eaten nothing else, and strange to say, she seems to have thrived on her queer meals. Crackers for breakfast, crackers for dinner, crackers for supper, until she says it is scarcely to be wondered at that her friends call her "Polly."

"Believe me, friends," said the millionaire, earnestly, "there is no greater happiness than in earning one's bread by the sweat of other people's brows."

Giving Them Room.
"There's one good thing," mused the woman reminiscently, "you may keep on hearing rumors of the things your best friends are saying about you, but you don't have to sit and listen while they are saying it, so long as there is a door."

On Life's Journey.
He will certainly fall who hopes to know men deep and only get happiness, never to be anxiety, distress, disappointment, out of knowing them; and he has mistaken the first idea of human companionship who seeks companionships, friendships and contacts with mankind directly and simply for the pleasure they will give him.—Phillips Brooks.

Again the Composition.
One can imagine the annoyance of the radio reporter who was trying to describe a close finish but only succeeded in getting this statement into print: "Kingmund beat him twice the first time by less than a week in a dingdong drive." And yet neck doesn't seem to look so much like week.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.
It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.
The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of Swamp-Root by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

In the Same Boat.
Apropos of the movement to abolish Sunday street trading, a costermonger said to Canon Jephson, vicar of Walworth: "I don't see why you parsons should bother us costermongers. We are both of a trade. I make my living by hollering outside and you make yours by hollering inside."

The Ideal Child.
An ideal child speaks in its appearance of unstudied grace, innocence and freedom. A child is like a wild flower. You spoil either by making for it a prim setting. Better the hair to be a little towzled than in ringlets; better the plump little legs to be in well-kicked-about boots than in patent-leather prisons; better anything than a handbox little lady or gentleman, afraid of a romp and a run.
